

Let  
the  
real *You*  
shine through.

**STYLE SENSE** StyleSense is located at 7201 Washington Avenue South in Edina. Exit from 169 onto Valley View Road west; go west to Washington Avenue, then south on Washington Avenue; the building is on your left. Open by appointment.

**How to make your new home your own.**

Congratulations on your new home! Now you're ready to enjoy choosing the details that will give your home its own unique personality. All those large and small touches that will become your signature.

We know that can sometimes seem like a daunting task. So we're here to say, "Don't worry, we'll help." The whole idea behind our StyleSense selection center is to provide you with exciting choices. To help you make them. And to keep you organized throughout the entire process. Now doesn't that sound easy?

# STYLE SENSE

## All the answers are here.

The StyleSense selection center is available exclusively to the buyers of homes built under the construction management of Ron Clark Construction & Design. And it's open by appointment only. Why is that? So you're guaranteed the time you want when it's most convenient for you.

### **One-stop location.**

We've gathered all the home products you'll need to see into one stunning showroom. So you won't need to spend days, nights and weekends racing around town trying to match a variety of elements. Whether you're determining carpet, tile, stone, cabinets, hardware, appliances or more, you'll find it at StyleSense.

### **It starts with a Construction & Design Coordinator.**

It's always nice to have a knowledgeable guide. You and your floor plans will meet with our own Construction & Design Coordinator, who is thoroughly familiar with not only all of the selections available but all of the home styles as well.

The Coordinator will guide you in achieving the look and feel you want by helping you assess and choose colors, textures and design elements. By providing exact technical specifications for both the home and the items you're choosing. And by organizing everything to a precise schedule to meet your finish date. Expressing your style has never been easier.
